These resources are designed to help parents **listen, practice, repeat and gradually use Kannada in their everyday communication.**

The materials can also support parents in communicating with and encouraging their wards to use Kannada.

Our Purpose

Through this initiative, we hope to create a supportive environment where parents can learn Kannada with confidence and gradually incorporate it into their daily lives.

These resources are shared for your reference and support to help you improve your Kannada language skills and support your ward in learning Kannada.

We encourage all interested parents, who are new to the language to make use of these resources and practise regularly.

Thank you for your interest and support.
