

**PRESIDENCY SCHOOL**  
**Bangalore/ Mangalore**  
**Midterm Examination – October 2026**  
**Structured Revision Worksheet-4**  
**Subject: Mathematics**

**Grade: III**

**Topic: Multiplication**

**SECTION A**

**I. Choose the correct answer:**

1. Ananya has 3 boxes. Each box contains 2 packets of 5 pencils each. How many pencils does Ananya have in total?  
(a) 10                      (b) 20                      (c) 30                      (d) 15
2. A toy car has 4 wheels. How many wheels do 143 such toy cars have in total?  
(a) 572                      (b) 376                      (c) 430                      (d) 378
3. Which property holds good for the given statement:  $4 \times (17 \times 35) = 4 \times 17 + 4 \times 35$   
(a) Order (Commutative) property                      (b) Zero property  
(c) Identity property                      (d) associative property
4. Any number multiplied by 0 is always equals:  
(a) 1                      (b) The number itself                      (c) 0                      (d) 10
5. The number to be multiplied is called  
(a) multiplicand                      (b) multiplication                      (c) product                      (d) multiplier
6. The product of two hundred sixty-eight by 2 is  
(a) 5 hundred 3 tens 6 ones                      (b) 5 hundred 4 tens 6 ones  
(c) 3 hundred 2 tens 3 ones                      (d) 6 hundred 5 tens 3 ones.

**II. Fill in the missing numbers in the given multiplication tables:**

1.  $12 \times \underline{\hspace{2cm}} = 72$
2.  $\underline{\hspace{2cm}} \times 9 = 81$

**III. Correct the underlined term (s) or number (s) to make the statement true:**

1. There are 130 months in 11 years
2. In the multiplication statement  $6 \times 4 = 24$ , the number 24 is the factor.
3. Double of 15 is equal to 15 x 3
4. The product of the largest 1-digit number and the smallest 1-digit odd number is 0.

**IV. Match the following:**

|                 |    |      |
|-----------------|----|------|
| 4 groups of 125 | a. | 450  |
| 9 x 50          | b. | 500  |
| Double of 175   | c. | 350  |
| 16 x 400        | d. | 200  |
| 25 x 8          | e. | 700  |
| 35 x 20         | f. | 6400 |
|                 | h. | 460  |

**V. Fill in the blanks:**

1. The multiplication statement for  $7 + 7 + 7 + 7 + 7 =$  \_\_\_\_\_.
2. The product of the largest 2-digit even number and 8 is \_\_\_\_\_.
3. If  x  = 36 then  +  = \_\_\_\_\_.
4. 9 times of 6 =  $(9 \times 5) + (9 \times \text{_____})$ .
5. The answer of multiplication is called \_\_\_\_\_.
6. In Lattice multiplication, we use \_\_\_\_\_ method of multiplication of numbers in rows and columns.

**VI. Circle the ones that do not belong to the group:**

1.  $3 \times 4$  ;  $2 \times 6$  ;  $12 \times 1$  ;  $5 \times 3$
2.  $6 \times 3$  tens;  $42 \times 2$  hundreds;  $5 \times 7$  ones;  $16 \times 6$  tens.
3.  $20 \times 4$  ;  $10 \times 10$  ;  $50 \times 2$  ;  $20 \times 5$ .
4.  $31 \times 1$  ;  $42 \times 0$  ;  $12 \times 7 = 84$  ;  $3 \times 4 = 4 \times 3$ .
5.  $7 \times 2$  ;  $2 + 2 + 2 + 2 + 2 + 2 + 2$  ;  $7 + 7$  ;  $5 + 3$
6. Double of 12; 6 times 4; 3 tens - 6 ones;  $5 \times 5$ .

## SECTION B

### VII. Do as directed:

1. In a classroom, students are seated in 5 rows. Each row has 6 desks. If 4 desks are currently empty, how many students are sitting in the class?
2. The entry ticket to Fun World for one child is ₹35. What is the total amount paid by 250 children for their tickets?
3. Find the product of one hundred thirty-six with three less than the number fifty.
4. Arrange the numbers in columns and multiply: 285 by 34
5. Multiply using Lattice method. (a)  $267 \times 8$       (b)  $65 \times 43$
